Â

NEW YORK, April 18, 2016 â€” Do you have questions about life insurance? Dr. Steven Weisbart, chief economist at the Insurance Information Institute (I.I.I.), can speak about unclaimed life insurance policies and other life coverage issues.

Â

For example, there are policies that remain in-force even after a policyholder misses a premium payment. The monies that accumulate in the cash value account of a permanent life insurance policy are used on occasion to make a premium payment in the event a policyholder forgets, or is unable, to do so.

Â

To arrange an interview with Dr. Weisbart, contact Michael Barry, vice president, Media Relations, I.I.I., at either 212-346-5542 or michaelb@iii.org.
